

# Associate Director - Cloud Security Architect

Job ID

386440BR

Jul 23, 2024

Czech Republic

## Summary

Location: Prague (Czechia), Barcelona (Spain), Warsaw (Poland), Tel Aviv (Israel), Hyderabad (India) Our Information Security Compliance Group is looking for an Associate Director - Cloud Security Architect to join our team! The Associate Director - Cloud Security Architect will work across information security & risk management, with all information technology functions to ensure public cloud and on-premise hosting environments are crafted and implemented as per defined policies, and industry standards. The successful candidate will be a good communicator with deep technical skills and, most importantly, a pragmatist who can think creatively. The individual must be highly collaborative as they will have an opportunity to influence functional leadership, project and application managers, other architects, engineers and developers.

## About the Role

### Major accountabilities:

- Developing and maintaining security roadmaps and strategy, working with various other security domain architects to align technology and service roadmaps
- Driving new technology/product/solution evaluations, providing leadership in the identification of specific security technology standards for Public Cloud technologies
- Wearing the 'engineering' hat regularly, driving product/solution Proof of Concept with other security architects/engineers
- Identifying and leading your team to develop new security design patterns and participating on our Security Technical Design Authority
- Driving and defining required Threat Modeling methodologies & related tools for Cloud hosting environments
- Being our expert on Cloud and Infrastructure platform security topics and identifying major cloud security related deficiencies, then designing pragmatic approaches on how to remediate them at scale
- Reporting on cloud security posture status across company periodically and is responsible for maintaining a clear risk acceptance/remediation level

### Minimum Requirements:

#### Work Experience:

- 8+ years of relevant professional IT experience in the related functional area, with a solid understanding of IT infrastructure technology, systems and management processes in a regulated industry
- 4+ years of experience as an Information Security Architect
- 2+ years experience working with AWS or Azure security architect (IaaS/PaaS)
- 2+ years working experience in DevOps/DevSecOps models
- Experience of sourcing complex IT services, working closely with vendors and making full use of their

abilities

- Demonstrated ability to build and maintain successful relationships with senior leaders from risk or non-risk/IT or non-IT backgrounds and ability to successfully manage projects involving multi-functional teams in a matrixed environment

Nice to have:

- 5+ years of experience of working in or providing IT services to a large enterprise like Novartis
- Relevant certifications:
  - Security related certifications: Certified Cloud Security Professional (CCSP), Certified Information Systems Security Professional (CISSP), ISO 27001 Lead Implementer
  - Technology related certification: AWS Certified Solutions Architect - Professional, AWS Certified Security - Specialty, Microsoft Certified: Azure Solutions Architect Expert

#### Languages :

- Proficiency in English (written & oral).
