About the Role

Note: THIS IS AN OPEN ROLE, AVAILABLE FOR IMMEDIATE JOB SELECTION

Location: Millburn, New Jersey

At Advanced Accelerator Applications, a Novartis company, we are committed to leading innovation in nuclear medicine and delivering the next generation of targeted radioligand therapy to cancer patients. We are looking for an experienced Health, Safety, and Environmental professional with previous leadership and radiation safety experience to help us reach our ambitious goals.

As the Site Head of HSE, you will be responsible for all HSE compliance aspects of a dynamic radioligand therapy drug product manufacturing plant and team. You will also be part of the Millburn Senior Leadership Team.

Key Responsibilities:

- Serve as the Site Radiation Safety Officer and collaborate with operations and technical teams to safely manage radioactive materials from raw materials to finished product and waste disposal.
- Drive the implementation and execution of the HSE roadmap defined by Novartis, working closely with all functions within the site and the broader Novartis organization.
- Maintain knowledge of and ensure strict adherence to all regulatory compliance standards applicable to the site and Company including Radiation Safety, Governance, Business Continuity & Emergency Management and Environmental Health and Safety
- Create and maintain an injury-free work environment that protects employees from hazards, including radiation exposure.

Diversity & Inclusion / EEO

We are Equal Opportunity Employers and take pride in maintaining a diverse environment. We do not discriminate in recruitment, hiring, training, promotion or other employment practices for reasons of race, color, religion, gender, national origin, age, sexual orientation, gender identity or expression, marital or veteran status, disability, or any other legally protected status. We are committed to building diverse teams, representative of the patients and communities we serve, and we strive to create an inclusive workplace that cultivates bold innovation through collaboration and empowers our people to unleash their full potential.

Accessibility and Reasonable Accommodations: Individuals in need of a reasonable accommodation due

to a medical condition or disability for any part of the application process, or to perform the essential functions of a position, please let us know the nature of your request, your contact information and the job requisition number in your message:

- Novartis: e-mail us.reasonableaccommodations@novartis.com or call +1 (877)395-2339
- Sandoz: e-mail reasonable.accommodations@sandoz.com or call: +1-609-422-4098

Job Sourcing Statement

You are applying to be part of the Novartis Talent Pool. We are not currently recruiting for this role but we are building a pipeline for future opportunities. If you would like to be considered for a similar position in future, then please submit your CV.

Role Requirements

Essential Requirements:

- Bachelor's Degree in industrial hygiene, health and safety, engineering, or related field or a minimum of 4 additional years of relevant experience in lieu of a degree.
- 7 years of experience in HSE management systems, including 2 years in a cGMP manufacturing environment OR another relevant regulated environment AND 2 years of radiation safety experience.
- Training and/or certification in radiation safety required.
- Prior experience leading HSE department is preferred
- Significant experience building an injury and error-free culture with advanced knowledge of multiple US compliance areas (EPA, OSHA, NRC, etc.) is required.

Why Novartis: Our purpose is to reimagine medicine to improve and extend people's lives and our vision is to become the -most valued and trusted medicines company in the world. How can we achieve this? With our people. It is our associates that drive us each day to reach our ambitions. Be a part of this mission and join us!
