

# RLT Medical Launch Liaison

Job ID  
REQ-10002980  
Apr 22, 2024  
China

## Summary

About the role: - RLT MLL serves as an ambassador and an advocate for RLT science within the healthcare community, and works directly with Nuclear medicine/oncology healthcare professionals across accounts, educates targeted radioligand treatment centers about appropriate setup, process, handling, administration and infrastructure, and as well as to discuss and provide scientific and therapeutic information on appropriate radiopharmaceutical licensing for Lu177, Ga 68 and other relevant radio linkers - In line with overall product strategy, the RLT MLL is responsible for supporting regional strategy, implementation and execution of Medical Affairs plans for radioligand therapy and radioligand imaging, providing scientific information, helping design and organize clinical studies, building educational dialogue with KOLs and regulatory stakeholders - Provide regional RLT leadership to accelerate the registration for new pipeline

## About the Role

### Key Responsibilities

The RLT MLL serves as the point of contact for all radioligand technical knowledge, education, and support to both external customers and internal cross account partners.

The RLT MLL works to educate stakeholders within accounts across healthcare specialties, including nuclear medicine and radiation oncology, urology and other clinics HCPs, to ensure RLT platform setup, excellence center buildup and appropriate administration of RLT products.

Licensing and education and/or training activities include:

- Provide account education for on-site preparation and infusion processes for RLT/RLI products, and education for appropriate radiopharmaceutical licensing and licencing logistics.
- Identify, establish and maintain collaborative relationships with national opinion leaders, investigators, institutions and professional societies strategic to appropriate product development and use.
- Profile and mapping external accounts with focus on nuclear medicine and radiation oncology, urology and other clinic departments.
- Partner and support internal partners with GDD, TRD, NPP and training for educational materials and appropriate educational presentations to external partners.
- Lead RLT regional critical projects, launch preparation activities, liaising with society associations in line with the medical strategy, and in collaboration on treatment guideline, consensus and some RLT platform handbook.
- Support country medical affairs strategy in line with the global strategy, country insights and secure regional implementation of planned Medical Affairs activities within the designated therapy area(s).

## Role Requirements

### Essential Requirements:

- MD, PharmD., pharmacist, PhD, Master above degree in medical or other life sciences
- Ability of Chinese and English
- Medical Science and Disease Area Knowledge
- Strategic& Enterprise Mindset
- Stakeholder Engagement& Experience
- Healthcare systems& partnerships
- Joint Value Creation& Collaboration
