Summary

We are looking for an Analyst with experience in developing data modeling, building visualizations and Reports for the Business owners/stakeholders in Sales force marketing cloud intelligence or Datorama. This position is in the Insights & Analytics team and will play a critical role in rapidly delivering high quality omni-channel experiences to consumers & patients across geographical regions. The candidate should be subject matter expert in Salesforce Marketing Cloud Intelligence (Datorama) with innovative problem-solving abilities, incredible flexibility, and a keen drive to learn, achieve and optimize. This role will work closely with stakeholders along with the analytics team supporting and leading many activities including but not limited to requirement gathering & grooming, solution & technical design, QA, technical documentation, KPI framework, measurement framework and analytical solution as needed

About the Role

Primary Responsibilities

- Implementing, Visualizing, maintaining, and analyzing marketing campaigns using Datorama as Marketing Cloud Intelligence Tool.
- Managing implementation of marketing data sets including – data ingestion, integration, analyzing and reporting.
- Work with cross-functional teams to continuously improve the quantity and quality of insights what you bring
- Data understanding for all media channels (Paid Search, Paid Social, Display campaigns, Programmatic, Web Analytics, etc.) using Datorama or MCI.
- Trusted advisor or SME support for all inquiries and new enhancements.
- Provide rapid ad hoc campaign analytical support for Marketing Cloud Intelligence (Datorama).
- Support and assist in business requirement capture, grooming, and overall project documentation.
- Assist and lead day-to-day governance, administration, and maintenance of the connected marketing activation optimization reports.
- Collaboratively deliver Marketing Cloud Intelligence data and reporting capabilities for key stakeholders.
- Proactively recommend process improvements to optimize and grow the use of the platform.

- Create guardrails and process documentation for team to use as checklists and guidance during execution.
- Manage Stakeholder relationships and expectations throughout the project delivery and maintenance phase.

Qualifications

- Master's or Bachelor's Degree with 2+ years of experience.
- Work experience in the Healthcare/Pharma/Life science industry is a plus.
- Ability to build visualization and analysis in Datorama or MCI is a must
- Ability to communicate effectively and deliver to both technical and business stakeholders.
- Strong business-centric/facing communication and project management skills.
- Datorama or MCI Certified preferred.
- Passion for customer service and relationship building and ability to collaborate in a constructive manner with others in a dynamic working environment
