

Data Governance Manager

Job ID
REQ-10017516
Aug 08, 2024
Mexico

Summary

Location: Mexico City, #LI-Hybrid About the role: We are seeking a Data Governance Manager who will provide high strategic thinking to approach business directors, marketing, and sales teams for the development of strategic plans that allow efficient data management.

About the Role

Key responsibilities:

- Explore, develop, implement, and evaluate digital innovation solutions that address customer needs. Co-create with key stakeholders to build partnerships and collaborations.
- Analyze user data and metrics to measure the effectiveness of designs and make data-driven improvements.
- Articulate design concepts and collaborate with cross-functional teams.
- Adapt to changing user needs and business goals, and stay updated with the latest trends and best practices in CX and UX.
- Develop and implement data governance policies that align with the organization's goals.
- Able to sensitize the IT team to understand the needs of an area that provides service to the commercial areas.
- Lead and deliver projects for regional and global teams, ensuring adherence to timelines and quality objectives.
- Provide guidance on training requirements in relation to data governance.

Essential requirements:

- Bachelor's degree in Computer Science, Information Technology, Data Management, Business Administration or equivalent
- 4-10 years of experience in data management, data governance, data quality, or related fields. This includes hands-on experience with data architecture, data modeling, and data lifecycle management.
- Proven experience in leading data governance initiatives and managing cross-functional teams. This involves coordinating with various departments to implement data governance policies and practices.
- Experience with data-related laws and regulations to ensure the organization complies with legal standards. This includes knowledge of GDPR, CCPA, and other relevant data protection regulations.
- Knowledge of design tools (e.g., Sketch, Figma, Adobe XD) and familiarity with front-end technologies (e.g., HTML, CSS, JavaScript) to effectively collaborate with developers.
- Ability to apply design thinking principles to create user-centered solutions.
- Fluent in English
- Strategic mindset / agile learning / strong communications skills to multiple audiences
