

P&O Senior Program and Project Manager

Job ID
REQ-10027239
Dec 02, 2024
Ireland

Summary

We're a team of dedicated and smart people united by a drive to achieve together. You will be responsible for managing multiple People & Organization (P&O) programs and projects, specifically within the portfolio of the newly formed People Technology, Data and Insights (PTDI) team. You will lead programs and projects from inception through to implementation, ensuring delivery within the specified budget, timelines and quality. You will build trusted relationships with stakeholders across P&O and Novartis' IT function (DDIT), encouraging a forward-looking approach whilst championing business impact.

About the Role

Key Responsibilities

- Manage multiple programs/projects within the P&O PTDI portfolio.
- Drive project scope definition, prepare and agree project plans including; key activities, deliverables, resource requirements, milestones, and timelines. Track cost, schedules, quality, and impact generated.
- Actively participate with functional counterparts through all stages of planning and implementation of projects and programs.
- Proactively ensure progress, resolve issues, track risks, and drive mitigation plans. Clear any barriers for the project team. Support all aspects of deployment including communication and change plans.
- Manage projects within agreed governance structure and processes. Provide regular status updates/reports to stakeholders.
- Bring structured thinking, planning, and a focus on business objectives into the programs and projects.
- Work closely with other team members and stakeholders to validate work meets business needs/requirements.
- Ensure continuous learning and usage of various project management methodologies.

What you'll bring to the role:

Essential Criteria:

- Bachelor's Degree with Master's Degree in a business discipline/MBA is preferred.
- Strong experience in leading the delivery of technical/ data-focused projects within large, highly matrixed organizations. This experience must include project management delivery at scale, with a proven ability to manage multiple stakeholders across various functions & geographies.
- Demonstrated analytical and organizational skills - Highly organized, capable of multi-tasking.
- Proven ability to influence others without having positional authority.
- Ability to operate with significant autonomy and discretion.
- Demonstrated bias for action and excellent ability to deal with great ambiguity.

- Excellent oral & written communication in English.

Desirable Criteria

- Industry certification in Project Management and agile.
- Technology management consulting experience.
- Experience in bringing emerging technologies (e.g. AI) to life within a business context, along with an active interest in current trends within technology and data science.
- Experience with Human Resources trends, best practices, and technology solutions.
