

Medical Operations Associate (MAPs and Evidence Generation)

Job ID
REQ-10027686
Nov 22, 2024
United Kingdom

Summary

To support the delivery of Managed Access Programs (MAPs) and studies (Investigator Initiated Trials, Non-Interventional Studies, Research Collaborations and Local Interventional Studies) to high operational standards

About the Role

Location:

This is a London head office based role with hybrid working meaning 12 days per month in the office.

Novartis are not able to offer visa support or relocation for this role. Candidates need to have the right to work in the UK permanently before applying.

#LI-Hybrid

Major accountabilities:

- Operational support for managed access programmes and locally managed studies
- Understands and applies processes, procedures, policies and guidelines
- Understands quality and compliance requirements, identifies risks and develops effective mitigation strategies
- Develops expertise in relevant systems (e.g. GEMs, NCV, etc)
- Manages communications with HCPs to a high standard
- Ensures timely distribution of safety information to relevant clinicians
- Manages internal stakeholders to ensure appropriate input from other teams as needed
- Empowered to be innovative and drive high quality operational delivery across medical affairs team activities
- Identifies ways to optimise processes and reduce risk or improve efficiency
- Assists the team in updating procedures and identifying and raising system improvements that would support delivery
- Demonstrate appropriate values and behaviours
- Understand the different perspectives of multiple stakeholders whilst being comfortable to challenge where appropriate
- Maintain clear and coherent communication, both verbal and written, to understand data needs and report results

Requirements:

- Experience of working in an operational or administrative role in the pharmaceutical industry
- Knowledge of the UK health care system
- Understanding of medical affairs including compliance, managed access programs, clinical trials and evidence generation preferred
- Experience of communicating with HCPs is beneficial
- Able to prioritise and manage own time
- Good interpersonal skills and demonstrated team working
