Dec 04, 2024
Czech Republic

Summary

Would you like to join our REFS team based in Prague and roll out new solutions globally?

In this role as Business Analyst Protective Security REFS, you will be a Senior Specialist for project delivery and operations in Protective Security.

Novartis is unable to offer relocation support for this role: please only apply if this location is accessible for you.

About the Role

Key Responsibilities:

- Partner with Business Stakeholders and DDIT Strategic Business Partners for demand analysis, solution proposal/evaluation and project delivery.
- Ensure adherence to security and compliance policies and procedures. Closely collaborate with global security.
- Support business needs in REFS Protective Security by implementing, enhancing, and continuously improving the key applications landscape.
- Delivery on agreed KPIs including business impact. Launch of innovative technology solutions across Novartis at scale.
- Adoption and development of agile, productization and DevOps practices.
- Managing operations stability and effective risk management.
- Providing feedback on customer experience.

Essential Requirements:

- Proven relevant industry/ business experience, ideally with IT background.
- Excellent project management and service delivery management skills.
- Proven ability to develop trust-based relationships with key stakeholders.
- Ability to interact with senior management and stakeholders.
- Experience with planning and risk management.
- Fluency in English.

Desirable Requirements:

- Experience with Honeywell products preferred.
- Background in Global / Protective Security preferred.
