Dec 13, 2024
USA

Summary

#Onsite

Production Technician plays an active role in daily production of Radioligand Therapies (RLT) as well as setup and preparation of instruments and equipment. The Production Technician adheres to regulatory requirements while performing job functions and executing production as per batch records and SOPs. Responsibilities are performed within a team and according to an assigned production shift schedule. The Production Technician works closely with the Manager and Lead to ensure production is executed in a safe and timely manner.

About the Role

Major Accountabilities

- Executes all activities related to the manufacturing of RLT products. Responsibilities include operating and maintaining grade A isolators, focusing on KPI goals as well as ensuring all state, federal and Novartis radiation safety guidelines are adhered to.
- Responsible for successful on time completion of required training curriculum comprising of the necessary Standard Operating Procedures (SOPs) and Aseptic Techniques, Gowning Qualifications and other relevant training including HSE for the specific role.
- Conducts routine and dynamic environmental monitoring as required.
- Supports all technical aspects related to production readiness including manually cleaning the cell and performing sterilization of the isolators using vaporized hydrogen peroxide.
- Prepares all materials while maintaining material identity in accordance with the batch monitoring system as defined by procedure.
- Participates in periodic mandatory overtime to ensure process continuity and completion.
- Other duties may be assigned, as necessary.

Key Performance Indicators

- Right First Time Batch Record execution. No recurrent deviations.
- Adherence to Attendance Guidelines and all Safety related procedures
- No major or critical audit findings pertinent to the Grade A isolators or Grade B/C areas.
- Manufacturing compliance/adherent to all GDP/GMP principles
- Aseptic/Cleanroom behavior in accordance with GMP guidelines

Specific Professional Competencies

- Flexibility to don clean room garments and personal protective equipment (PPE).
- Near vision performance should be the equivalent of 20/20 with no impairment of color vision. The use of

corrective lenses to achieve the desired visual acuity is permitted.
• Makeup, jewelry, nail polish, perfume/cologne and other potential microbial sources are prohibited in restricted areas.
• Ability to lift or carry up to 35 pounds.

Essential Requirements:

- Bachelor's degree in relevant Engineering or Scientific discipline is highly preferred; If the applicant does not have a degree, a minimum of 1+ year' of experience in cGMP or aseptic environment is required.
- Knowledge of cGMP regulations and FDA guidance applicable to aseptic manufacturing is highly preferred.
- Ability to gown aseptically and work in a clean room environment (Grade C) area for extended periods of time is required.
- Near vision performance should be the equivalent of 20/20 with no impairment of color vision. The use of corrective lenses to achieve the desired visual acuity is permitted.
- Ability to lift or carry up to 35 pounds.
- Radio Pharma experience preferred.

The pay range for this position at commencement of employment is expected to be between $27.79to $51.59/hour; however, while salary ranges are effective from 1/1/25 through 12/31/25, fluctuations in the job market may necessitate adjustments to pay ranges during this period. Further, final pay determinations will depend on various factors, including, but not limited to geographical location, experience level, knowledge, skills and abilities. The total compensation package for this position may also include other elements, including a sign-on bonus, restricted stock units, and discretionary awards in addition to a full range of medical, financial, and/or other benefits (including 401(k) eligibility and various paid time off benefits, such as vacation, sick time, and parental leave), dependent on the position offered. Details of participation in these benefit plans will be provided if an employee receives an offer of employment. If hired, employee will be in an "at-will position" and the Company reserves the right to modify base salary (as well as any other discretionary payment or compensation program) at any time, including for reasons related to individual performance, Company or individual department/team performance, and market factors.
