Juli 10, 2024

Tschechische Republik

About the Role

Location: Czech Republic (Hybrid)

Novartis is unable to offer relocation support for this role: please only apply if this location is accessible for you.

The UX/UI Designer involves applying Design thinking and UX/UI services to develop and refine a range of digital solutions. The designer will work collaboratively across functions to ideate, create, and manage end-to-end (E2E) services that enhance user experience and contribute to the company's strategic goals

Key Responsibilities:

Your responsibilities include, but are not limited to:

- Design intuitive UIs for web and mobile applications within the healthcare domain.
- Conduct extensive user research to understand the needs of patients and healthcare professionals.
- Develop user personas, journey maps, and wireframes to guide your design process.
- Prototype interactive design solutions and validate them through user testing.
- Collaborate with developers to ensure accurate implementation of designs.
- Utilize analytics tools to measure user engagement and iterate on designs accordingly.
- Ensure all designs meet international standards for accessibility and inclusivity.
- Lead design projects from conception to completion, ensuring they align with business objectives.
- Facilitate workshops and brainstorming sessions to generate innovative design solutions.
- Create detailed design specifications and guidelines for development teams.
- Work closely with the QA team to identify and resolve design-related issues.
- Manage the design library and ensure all assets are organized and up-to-date.
- Engage with stakeholders to gather feedback and incorporate it into design decisions.

Diversity & Inclusion / EEO

We are committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

Role Requirements

What you'll bring to the role:

- Mastery of UX/UI design software such as Figma, Miro, Sketch, and Adobe Creative Suite. Proficiency in conducting A/B testing and interpreting the results to inform design decisions.
- Minimum of 3 years of experience in UX/UI design, with a focus on healthcare applications. A strong portfolio

that showcases a breadth of design work across various platforms.

- Knowledge of HTML, CSS, and JavaScript to communicate effectively with developers. Experience with data visualization and the ability to present complex information clearly.
- Experience working in a regulated industry, with an understanding of compliance requirements. Proven track record of collaborating with large, cross-functional teams.
- Prior experience with user research and usability testing methodologies. History of successful project management and delivery of design initiatives.

Desirable requirements:

- Continuous education or certification in design-related fields. Familiarity with Agile and Lean UX methodologies
- Bachelor's or Master's degree in Design, HCI, or a related field.

You'll receive:

Monthly pension contribution matching your individual contribution up to 3% of your gross monthly base salary; Risk Life Insurance (full cost covered by Novartis); 5-week holiday per year; (1 week above the Labour Law requirement) ; 4 paid sick days within one calendar year in case of absence due to sickness without a medical sickness report; Cafeteria employee benefit program – choice of benefits from Benefit Plus Cafeteria in the amount of 12,500 CZK per year; Meal vouchers in amount of 90 CZK for each working day (full tax covered by company); Public Transportation allowance; MultiSport Card.
