

# Data Governance Manager

Job ID  
REQ-10017516  
Aug. 08, 2024  
Mexiko

## Zusammenfassung

Location: Mexico City, #LI-Hybrid About the role: We are seeking a Data Governance Manager who will provide high strategic thinking to approach business directors, marketing, and sales teams for the development of strategic plans that allow efficient data management.

## About the Role

### Key responsibilities:

- Explore, develop, implement, and evaluate digital innovation solutions that address customer needs. Co-create with key stakeholders to build partnerships and collaborations.
- Analyze user data and metrics to measure the effectiveness of designs and make data-driven improvements.
- Articulate design concepts and collaborate with cross-functional teams.
- Adapt to changing user needs and business goals, and stay updated with the latest trends and best practices in CX and UX.
- Develop and implement data governance policies that align with the organization's goals.
- Able to sensitize the IT team to understand the needs of an area that provides service to the commercial areas.
- Lead and deliver projects for regional and global teams, ensuring adherence to timelines and quality objectives.
- Provide guidance on training requirements in relation to data governance.

### Essential requirements:

- Bachelor's degree in Computer Science, Information Technology, Data Management, Business Administration or equivalent
- 4-10 years of experience in data management, data governance, data quality, or related fields. This includes hands-on experience with data architecture, data modeling, and data lifecycle management.
- Proven experience in leading data governance initiatives and managing cross-functional teams. This involves coordinating with various departments to implement data governance policies and practices.
- Experience with data-related laws and regulations to ensure the organization complies with legal standards. This includes knowledge of GDPR, CCPA, and other relevant data protection regulations.
- Knowledge of design tools (e.g., Sketch, Figma, Adobe XD) and familiarity with front-end technologies (e.g., HTML, CSS, JavaScript) to effectively collaborate with developers.
- Ability to apply design thinking principles to create user-centered solutions.
- Fluent in English
- Strategic mindset / agile learning / strong communications skills to multiple audiences
