Zusammenfassung

Location: Montreal, #LI-Hybrid Novartis is unable to offer relocation support for this role: please only apply if this location is accessible for you. About the role: Ready to make a real difference on patients' lives and their families? We are seeking a Commercial Quality Head being the final link in the quality chain, ensure safe and compliant products for our patients In this role you will also listen to the voice of the customer and act as the contact for quality defects, counterfeits and recalls, and represent the face of Novartis to the health authorities. Manage reputation and quality risks. This role will work directly with the Novartis Country Quality team and reports to the Novartis Country Quality Region LACan Head

About the Role

Major accountabilities:

Your responsibilities include, but are not limited to:

- Lead the development of a cross-divisional Quality Culture with high awareness on data integrity and close collaboration with business partners within Canada ensuring a state-of-the-art Country Quality Organization is in place to best support overall business strategy.
- Establish effective Quality oversight and ensure Quality Plan is implemented in Canada (HUBs & Operations, MS) namely for batch release in compliance with Marketing Authorization, effective change control management, effective complaint management, effective Quality GxP areas.
- Lead the implementation of adequate Key Quality Indicators to monitor on an on-going basis that relevant processes are in control and compliant.
- Establish regular review and assessment of KQIs at the Country Level
- Lead the implementation of applicable Quality Standards and effective CAPA processes and ensure compliance with escalation processes in Canada
- Ensure that relevant SOPs are aligned to HA regulatory requirements.
- Deliver successful GxP regulatory inspections and internal audits in the country.
- Continuously engage in benchmarking with other industries, industry peers and actively engage proactive relationships with Health Authorities
- **Lead the implementation and execution of the talent management strategy for all key positions in conjunction with other countries in the region.**

What you'll bring to the role:

Essential:

- Scientific or Technology Bachelor's Degree (minimum), preferably in Chemistry, Pharmacy or Life Science. PhD desired
- At least 10 years of experience in Pharmaceutical Industry across Quality Commercial/Quality Operations/Manufacturing/Development with a minimum of years of people management experience.
- Inspiring and developing Quality Organization in Canada, promoting agility, learning and growth.
- Strong leadership presence, with ability to effectively interact with and present to Senior Management, as well as to external audiences and health authority inspectors.
- Ability to influence key opinion leaders without hierarchical authority.
- Strong organizational awareness and business acumen (e.g. interrelationship of departments, business priorities), including significant experience working cross-functionally and in global and matrix teams.
- Business Partner and support the Product Lifecycle and product portfolio management, ensuring agility and readiness for advanced therapies launches.
- Fluency in English (oral and written), and French (oral and written), an additional language(s) a plus.

Desirable:

- **Track record of successful cross- divisional/cross-functional work with complex international and multidisciplinary teams.**
- **Ability to influence and drive/facilitate change across the organization.**
