

Medical Scientific Liaison

Job ID
REQ-10005771
Mayo 06, 2024
Turquía

Resumen

Lead scientific interaction with Medical Professionals. Implement clinical and educational strategies and respond to unsolicited medical questions.

About the Role

Major Accountabilities

- Communicating with Medical Professionals (ME) to exchange medical/scientific information.
- Ensure appropriate identification/mapping of MEs/Key Accounts, including identification of opportunities to include MEs when a specific medical need is identified to provide support
- Develop and execute ME engagement plans to effectively prioritize and engage MEs aligned with country strategy.
- Responding to unsolicited requests for information from MEs
- To support Novartis clinical research programs, optimize the execution of studies, and provide scientific training support to potential and real study centers in collaboration with clinical operations.
- Facilitating Investigator-Initiated Study (IIT) at investigator request
- Reporting of technical complaints/adverse events/exception scenarios related to Novartis products within 24 hours of receipt.

Key Performance Indicators

- **Lead scientific interaction with Medical Professionals.**
- **Implement clinical and educational strategies**
- **Respond to unsolicited medical questions.**
