Resumen

Novartis is unable to offer relocation support for this role: please only apply if this location is accessible for you. The Microsoft 365 Solution Architect is a technical leader who assists in the design and implementation of Microsoft 365 solutions that meet the needs and goals of Novartis. You will ensure alignment with the enterprise architecture, security, and governance standards, as well as best practices and industry trends. You will also provide guidance and support to other teams and customers on how to leverage the Microsoft 365 capabilities and services.

About the Role

Your key responsibilities:

- Actively contribute to evolving our use of Microsoft 365 and its near-constant inflow of new capabilities to support needs of the organisation.
- Cooperate with teams responsible for supporting technologies and capabilities to ensure uninterrupted access (i.e. DNS, Firewalls, Network Infrastructure, Proxy etc.)
- Collaborate cross-domain to ensure positive, fluid and pain-free user experiences, with as few barriers to entry as possible.
- Actively contribute towards a zero-trust Digital Workplace strategy.
- Take accountability to ensure adherence with Security and Compliance policies and procedures; work cross domain to evolve those policies where necessary.
- Partner with technology vendors to assess and remediate unacceptable risks and gaps.
- Create and maintains architecture documentation artifacts, architecture handbooks, design specifications.
- Support the delivery of Proof of Concepts (PoC's) and Proof of Value (PoV).
- Contribute to the overall governance of the Microsoft 365 Platform services from the Architecture standpoint especially in the area of 3rd party system integrations.
- Ensure that solutions and services are supported across all user endpoints, Windows. Mac and Mobile. Drive product/solution Proof of Concept with other architects/engineers.

Commitment to Diversity & Inclusion: :

We are committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

What you'll bring to the role:

- Hands-on experience with Microsoft productivity platforms and their underlying infrastructures and systems.

- Excellent communication and collaboration skills, as the role involves working with various stakeholders, including customers, other teams, and vendors.
- Proven Ability to Develop trust-based relationships with key regional stakeholders.
- Preferably from IT Infrastructure background with exposure to IT Service Delivery.
