Reino Unido

Resumen

-Leads the strategic and operational planning and management of the assigned clinical program(s) from an end-to-end clinical operations perspective. Complete oversight of budget and resource allocation for the assigned programs. Drives operational excellence through process improvement and knowledge sharing across the function. Enables an empowered organization which can navigate in a matrix environment and adjust quickly to business needs.

About the Role

Are you a highly skilled and passionate medical professional looking for an exceptional opportunity to make a significant impact in the field of clinical development? Look no further! Novartis, a world-class pharmaceutical company, is seeking a Clinical Development Medical Director to join our ambitious and innovative team in Ireland. This is a rare chance to contribute to groundbreaking research and shape the future of medical advancements.

As the Clinical Development Medical Director at Novartis, you will play a key role in leading research initiatives and working closely with a team of highly skilled professionals. Your demonstrated expertise and successful track record will be essential in ensuring the smooth execution of clinical development programs. You will have the opportunity to work collaboratively with cross-functional teams to identify and implement effective strategies.

Responsibilities:

- **Lead and oversee the development and execution of clinical development plans for assigned projects**
- **Perform thorough analysis of clinical data and communicate findings to colleagues within the company**
- **Collaborate with essential team members to develop and carry out clinical trials**
- **Provide medical expertise and guidance throughout the drug development process**

- **Maintain compliance with regulatory requirements and industry standards**
- **Stay up-to-date with the latest scientific advancements and incorporate them into development strategies**

Requirements:

- **MD or equivalent medical degree is required in addition to advanced knowledge and clinical training in with expertise in infectious diseases**

Clinical practice experience 4 years (including residency) and board certification preferred

- **Minimum of 7 years of experience in clinical research or infectious diseases drug development experience**

- **Experience in an academic clinical research or industry environment spanning clinical activities in Phases I through IV required.**

- **2 years of contribution to and accomplishment in all aspects of conducting clinical trials (e.g., planning, executing, reporting and publishing) in a global/matrix environment in pharmaceutical industry required.**

- **Experience in conduct of clinical studies in Sub-Saharan African Countries.**

- **Working knowledge of infectious diseases required, with proven ability to interpret, discuss and present efficacy and safety data relating to clinical trial(s) and proven ability to understand and interpret basic and clinical scientific research reports**

- **Demonstrated ability to establish effective scientific partnerships with key stakeholders**

- **Working knowledge of GCP, clinical trial design, statistics, and regulatory and clinical development processes**

- **Previous global people management experience is preferred, though this may include management in a matrix environment.**

At Novartis, we are committed to fostering an inclusive and diverse work environment. We believe that diversity drives innovation and creativity, and we strive to create a culture where everyone feels valued and respected. As an equal opportunity employer, we welcome applicants from all backgrounds and experiences. We also offer reasonable accommodations and adjustments for applicants with disabilities to ensure a fair and accessible recruitment process.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives. Ready to create a brighter future together?
