Resumen

We are seeking a talented and driven Digital Analyst to join our team at Novartis. As a Digital Analyst, you will be responsible for analyzing digital data, providing insights, and optimizing our digital marketing strategies to drive business growth. You will work closely with marketing teams, data scientists, and digital specialists to measure digital performance, identify trends, and enhance user experiences. This is an exciting opportunity to leverage your analytical skills and contribute to the digital transformation of a leading global healthcare company.

About the Role

Responsibilities:

Conduct in-depth analysis of digital data to uncover key insights, trends, and opportunities across various digital channels, including websites, mobile apps, and social media platforms.

Collaborate with cross-functional teams to define digital performance metrics, KPIs, and success criteria, and ensure proper tracking and data collection.

Utilize web analytics tools (e.g., Google Analytics, Adobe Analytics) to measure, track, and report on digital performance metrics and identify areas for improvement.

Develop and maintain dashboards and reports that provide actionable insights and visualizations to stakeholders.

Conduct competitive analysis and benchmarking to identify best practices and emerging trends in digital marketing.

Collaborate with data scientists and digital specialists to implement data-driven marketing strategies and optimize digital touchpoints.

Stay up-to-date with industry trends, digital analytics methodologies, and emerging technologies to drive innovation and enhance our digital capabilities.

Assist in the development and maintenance of digital analytics frameworks, processes, and tools to ensure data accuracy, automation, and scalability.

Qualifications:

Bachelor's degree in Computer Science, Marketing, Statistics, or a related field. Master's degree is a plus.

2-4 years of experience in digital analytics or a relevant analytical role.

Strong knowledge of digital analytics platforms (e.g., Google Analytics, Adobe Analytics) and familiarity with digital marketing concepts.

Proficiency in using SQL, Python, or R for data manipulation and analysis. Experience with data visualization tools (e.g., Power BI) is a plus.

Strong analytical mindset with the ability to translate data into actionable insights and recommendations.

Excellent communication and presentation skills, with the ability to effectively communicate complex concepts to non-technical stakeholders.

Strong attention to detail and ability to prioritize tasks, manage multiple projects, and meet deadlines.

Experience in the pharmaceutical or healthcare industry is a plus.

Fluency in English is required, additional language skills are a plus.
