Resumen

As an IT OT Specialist, you will play a crucial role in supporting our 24/7 plant operations and maintaining the integrity of our IT services.

About the Role

At Advanced Accelerator Applications, a Novartis company, we are committed to leading innovation in nuclear medicine and delivering the next generation of targeted radioligand therapy to cancer patients. We are looking for experienced Supply Chain professionals to help us reach our ambitious goals.

Location: Onsite

Responsibilities:

- Provide technical support and assistance in the integration of our IT and OT (Operational Technology) systems
- Maintain and Troubleshoot software applications suited for the plant's specific requirements
- Ensure compliance with GMP, SOP, and GAMP guidelines to uphold the quality standards of the plant
- Troubleshoot and resolve complex technical issues related to IT infrastructure and software applications
- Collaborate with cross-functional teams to implement and optimize network integration solutions
- Stay up-to-date with the latest industry trends and advancements in IT infrastructure and software development
- Communicate effectively with team members and stakeholders to gather requirements and provide timely updates on projects

Minimum Qualifications:

- Bachelor's degree in Computer Science, Information Technology, or a related field
- 2-3 years of experience in IT/OT infrastructure and software development
- Strong knowledge and experience in IT Infrastructure including network integration and security
- Proficient in supporting mission critical manufacturing sites on 24x7 basis
- Familiarity with GXP (Good Manufacturing / Laboratory Practices), Data integrity, SOP (Standard Operating Procedures), and GAMP (Good Automated Manufacturing Practice) guidelines
- Excellent problem-solving skills and ability to troubleshoot complex technical issues
- Strong communication skills, both written and verbal
- Proven experience in IT infrastructure and operational technology
- Solid understanding of network integration principles and protocols
- Proficiency in programming languages such as Java, C++, or Python
- Familiarity with GMP, SOP, GAMP, and other relevant regulations and guidelines

- Ability to work efficiently in a fast-paced, 24/7 operational environment
- Strong problem-solving skills and an analytical mindset
- Excellent written and verbal communication skills to effectively collaborate with team members and stakeholders

The pay range for this position at commencement of employment is expected to be between \$84,000 and \$126,000 per year; however, base pay offered may vary depending on multiple individualized factors, including market location, job-related knowledge, skills, and experience. The total compensation package for this position may also include other elements, including a sign-on bonus, restricted stock units, and discretionary awards in addition to a full range of medical, financial, and/or other benefits (including 401(k) eligibility and various paid time off benefits, such as vacation, sick time, and parental leave), dependent on the position offered. Details of participation in these benefit plans will be provided if an employee receives an offer of employment. If hired, employee will be in an “at-will position” and the Company reserves the right to modify base salary (as well as any other discretionary payment or compensation program) at any time, including for reasons related to individual performance, Company or individual department/team performance, and market factors.

Why Advanced Accelerator Applications?

Thousands of people die of cancer around the world every day. At Advanced Accelerator Applications, a Novartis company, our mission is to transform lives through radioligand therapy in nuclear medicine to fight several leading types of cancer. How will we continue to be on the cutting edge of medicine? We believe new groundbreaking solutions can be found at the intersection of medical science and digital innovation. That a diverse, equitable and inclusive environment inspires new ways of working. We believe our potential can thrive and grow in an unbossed culture underpinned by integrity, curiosity and flexibility. And we can reinvent what's possible, when we collaborate with courage to aggressively and ambitiously tackle the world's toughest medical challenges. Because the greatest risk in life, is the risk of never trying! Imagine what you could do here at Novartis!

Commitment to Diversity & Inclusion:

Novartis embraces diversity, equal opportunity, and inclusion. We are committed to building diverse teams, representative of the patients and communities we serve, and we strive to create an inclusive workplace that cultivates bold innovation through collaboration and empowers our people to unleash their full potential.
