Resumen

Production Technician plays an active role in daily production of Radioligand Therapies (RLT) as well as setup and preparation of instruments and equipment. The Production Technician adheres to regulatory requirements while performing job functions and executing production as per batch records and SOPs. Responsibilities are performed within a team and according to an assigned production shift schedule. The Production Technician works closely with the Manager and Lead to ensure production is executed in a safe and timely manner.

About the Role

Major Accountabilities

- Executes all activities related to the manufacturing of RLT products. Responsibilities include operating and maintaining grade A isolators, focusing on KPI goals as well as ensuring all state, federal and Novartis radiation safety guidelines are adhered to.
- Responsible for successful on time completion of required training curriculum comprising of the necessary Standard Operating Procedures (SOPs) and Aseptic Techniques, Gowning Qualifications and other relevant training including HSE for the specific role.
- Conducts routine and dynamic environmental monitoring as required.
- Supports all technical aspects related to production readiness including manually cleaning the cell and performing sterilization of the isolators using vaporized hydrogen peroxide.
- Prepares all materials while maintaining material identity in accordance with the batch monitoring system as defined by procedure.
- Participates in periodic mandatory overtime to ensure process continuity and completion.
- Other duties may be assigned, as necessary.

Key Performance Indicators

- Right First Time Batch Record execution. No recurrent deviations.
- Adherence to Attendance Guidelines and all Safety related procedures
- No major or critical audit findings pertinent to the Grade A isolators or Grade B/C areas.
- Manufacturing compliance/adherent to all GDP/GMP principles
- Aseptic/Cleanroom behavior in accordance with GMP guidelines

Specific Professional Competencies

- Flexibility to don clean room garments and personal protective equipment (PPE).
- Near vision performance should be the equivalent of 20/20 with no impairment of color vision. The use of corrective lenses to achieve the desired visual acuity is permitted.
- Makeup, jewelry, nail polish, perfume/cologne and other potential microbial sources are prohibited in

restricted areas.

- Ability to lift or carry up to 35 pounds.
