Resumen

Global Security Intelligence Unit (GSIU) provides timely and relevant intelligence in order to protect Novartis associates, patients, assets, travelers, brands, reputation and intellectual property.

We are looking for an intelligence researcher to join our intelligence team to collect, analyze and disseminate information to assess threats, capabilities, vulnerabilities and opportunities that may impact Novartis associates and assets.

The candidate must have a passion for intelligence, with a strong desire to learn and develop in a security intelligence arena. They must demonstrate strong communication skills and be able to work in a time pressured environment.

This position will report into the Head Global Security Intelligence COE in Basel and will be based in East Hanover, alongside the US Investigations Team.

This role is required to be in our East Hanover, NJ office 3x/week.

About the Role

Key Responsibilities:

- Contribute to the research and collection of threat information from multiple sources, based on agreed intelligence requirements, and using this to create timely, clear, accurate and actionable security intelligence, threat assessments, management briefings, security alerts, country risk assessments, source reports, multi-media presentations, workshops, and training
- Monitoring of geopolitical updates and providing succinct summaries in support of intelligence team and business continuity teams
- Provide project support to Meetings, Congresses and Events Security supporting procurement processes and threat assessment
- Provide support to the global background screening process
- Provide administrative and project support to the GS-Americas and the Legal IP Team (10% of role)

Minimum Requirements:

- Degree in a security, intelligence or criminology or similar field; or similar working experience
- Knowledge of Microsoft Office
- Be able to condense complex and voluminous data into concise intelligence products
- Open-Source Intelligence (OSINT) research trained

Desirable

- Experience in an intelligence related role
- Training in intelligence analysis
- Working experience in the Americas region

Languages :

- English and additional language(s) preferred (Spanish or Portuguese desired as role is in support of Americas region)
