

# MS&T Scientist - Temporary (2 Years)

Job ID  
REQ-10042584  
Mar 03, 2025  
Austria

## Resumen

MS&T Scientist (m/f/d), Kundl, Tyrol, Austria

As a valued member of the Manufacturing Science and Technology (MS&T) team, you will play a key role in both the design and implementation of key scientific experiments to achieve robust and scalable purification processes. Your focus will be on projects related to therapeutic proteins, antibodies, and pDNA manufacturing, while also exploiting new cutting-edge technologies such as mRNA production.

As you become more experienced in our laboratory, you will over time take full ownership of a range of scientific projects which will gradually widen in scope as you develop your skills in project management. Additionally, you will have the opportunity to develop your team skills by working within a very collaborative atmosphere.

At the same time, we will ensure that you are well-equipped with the scientific and project management expertise, which will be necessary to make a successful start to your pharmaceutical career at one of the world's leading pharmaceutical companies.

Join the MS&T team in Kundl and play a central role in delivering for Novartis patients both in Austria and around the world.

## About the Role

### *Main Accountabilities*

*Your responsibilities include but are not limited to:*

- Independently plan, organize, perform and document scientific experiments and lab scale process activities for process development and to support late-stage programs and life cycle management under minimal supervision
- Participate in tech transfer activities from laboratory to industrial scale, support validation activities
- Identify improvement options of current processes and contribute to the development and implementation of new technologies
- Take over responsibility for and utilize lab equipment or specialized facilities as an expert; schedule and perform maintenance and qualification of instruments
- Work according to appropriate standards for quality, ethics, health, safety, environment protection, and

information security as well as lead initiatives to ensure continuous improvement

- Documentation of raw data, evaluation and interpretation of results; propose and actively support the design of next experiments
- Write protocols, scientific reports or lab procedures based on templates or SOPs under minimal supervision
- Perform information and literature searches under minimal guidance while actively fostering knowledge exchange
- Participate in function-specific sub teams and fulfil assigned project tasks as well as responsibilities under supervision – tasks which will include the approval of experiments performed by others
- Train and coach other scientists, lab technicians, temporary employees and employees under training/education

*What support you will bring to the role:*

*Essential:*

- Master of Science with 1 year of relevant experience / Bachelor of Science with 3 years relevant experience / Apprenticeship in industry (or equivalent technical education) with 10 years relevant experience
- Full professional proficiency in spoken and written English
- Good theoretical and scientific knowledge in the relevant area of expertise
- Proficient with laboratory and/or technical equipment
- Good knowledge of software and computer tools
- Good documentation and presentation skills
- Basic scientific/technical writing skills

*Desirable:*

- Professional proficiency in spoken and written German
- Experience in the pharmaceutical industry

*Why Novartis?*

With our people. It is our associates that drive us each day to reach our ambitions. Be a part of this mission and join us! Learn more here: <https://www.novartis.com/about/strategy/people> and culture

*Imagine what you could do here at Novartis!*

In addition to a market-competitive base salary, we offer an attractive incentive program, a modern company pension scheme, childcare facilities, learning and development options as well as worldwide career opportunities within the Novartis group. In accordance with Austrian law, we are obliged to disclose the minimum salary as stated in the collective bargaining agreement. For this position the minimum salary is €58,199.96 per year (on a full-time basis). The actual salary will be significantly higher, as we strive to

maintain a competitive position in the market and consider your previous experience, qualifications and individual competencies.

#### *Disabilities: Accessibility and Reasonable Adjustments*

Novartis is committed to working with and providing reasonable adjustments to individuals with disabilities. If because of a medical condition, physical disability, or Neurodiverse condition you need an adjustment for any part of the recruitment process, please reach out to [disabilities.austria@novartis.com](mailto:disabilities.austria@novartis.com) and let us know the nature of your request and your contact information. The support which we can provide will include advice on suitable positions as well as guidance at all stages of the application process. Austrian law provides candidates the opportunity to involve the local disability representative, Behindertenvertrauensperson (BVP), in the application process. If you would like to request this, please let us know in advance as a note on your CV.

#### *Commitment to Diversity & Inclusion:*

Novartis is committed to building an outstanding, inclusive work environment and diverse team's representative of the patients and communities we serve. Our recruitment decisions are based on selecting the best person for the job, regardless of gender, religion, age, colour, race, sexual orientation, nationality, or disability.
