Résumé

The Lead-Health Economics will play a pivotal role within the Integrated Health Solutions team by leading all strategies & plans towards the creation, development and dissemination of product value for Novartis Innovator portfolio through value models, tools & communications. The role supports the access and commercial teams to achieve optimal market access both in private and public channels. The role also plays a key role in shaping new product strategy from an overall market access & country perspective.

About the Role

Key Responsibilities

- Lead & contribute to the development, design, analysis and interpretation of all HEOR projects that demonstrate the over product value (both clinical & economic)
- Develop and integrate parameters necessary to demonstrate clinical, economic and humanistic product value to payers and other decision makers into outcomes research. develop health economic tools/models to be used in both reimbursement and private market access.
- Collaborate across business units to increase the influence of payer, access and healthcare systems voice and needs on the overall product and evidence generation strategies and activities
- Establishes and maintains relationships with key economic modelling, HTA, outcomes research and access evidence agencies, leaders & key stakeholders both outside and inside the company and contributes to shaping the field on behalf of Novartis
- Lead by example on demonstration of value in field to Payers, government stakeholders, public & private HCP, policy decision makers etc.
- Create suitable strategies, tactics & programs to drive uptake of HE tools & value communications which drive impact in the market towards increased adoption of innovative therapies. Development of solutions/initiatives based on understanding of the local landscape, access & affordability barriers and evidence barriers.
- Provide training and capability building internally across cross-functional teams which includes marketing, sales team etc. Drive overall value dissemination around economic value through internal & external collaboration through seminars/roundtables as well as publications such as whitepaper/research articles etc
- Evaluate, analyze and understand value propositions, unmet need and provide suitable market access strategies for new pipeline products, indications expansions etc. Work & collaborative with Novartis Access CoE & other regional/cluster teams around the spectrum of health economics & new products planning.
