Résumé

The Director, Research & Analytics will play a pivotal role in driving data-driven decision-making, enhancing stakeholder engagement, and positioning the Analytics and Insights team as a strategic powerhouse. They will leverage cutting-edge technologies, methodologies, and practices to deliver impactful insights and drive strategic decision-making with greater efficiency and effectiveness.

About the Role

Key Responsibilities

- **Trust & Reputation Research:** In partnership with strategic vendors, conduct in-depth research on trust and reputation drivers across defined markets and target audiences. Analyze data and provide actionable insights to enhance the organization's reputation and strengthen stakeholder relationships.
- **Market & Competitor Intelligence:** Collect and analyze market and competitor data to provide insights on market trends, competitive positioning, and opportunities for growth. Inform business strategies and support successful market positioning.
- **Politics & Policy Development Research & Analysis:** Stay abreast of political landscapes, policy developments, and regulatory changes that may impact the organization. Conduct research and analysis to inform proactive approaches and strategies in response to political and policy developments.
- **General Research Projects:** Lead and oversee research projects on various topics as assigned. Apply rigorous research methodologies and analytical techniques to generate meaningful insights and identify actionable recommendations for stakeholders.
- **External Trends:** Monitor and analyze external trends, emerging technologies (including AI), and best practices in analytics and insights. Provide recommendations on adopting new tools, methodologies, or approaches to enhance the effectiveness and impact of the Analytics and Insights team.
- **Agile Research Methodologies:** Embrace agile research methodologies that allow for faster and iterative research cycles, enabling real-time insights and more responsive strategies. Explore lean research approaches and experiment with quick feedback loops to ensure relevance and effectiveness.
- **ROI and Impact Measurement:** Implement frameworks and methodologies for measuring the return on investment (ROI) and impact of research and analytics initiatives. Develop key performance indicators (KPIs) that link research findings to business outcomes and track the effectiveness of insights-driven strategies.
- **Agency & Partner Management:** Collaborate with external research agencies and partners to design and execute research projects, ensuring high-quality deliverables and optimal utilization of resources. Manage relationships and drive performance through effective vendor management.
- **Automation and AI Integration:** Explore opportunities to automate research processes and integrate AI technologies. This may include automating data collection, cleaning, and processing tasks, as well as

leveraging AI algorithms for advanced analysis and pattern recognition.

- **Consult CA Teams and Strategic Planning:** Consult with cross-functional teams in Corporate Affairs and other departments, leveraging research findings to develop actionable plans and strategies. Provide guidance and support in translating research insights into impactful initiatives and campaigns.

This position will be located at the East Hanover, NJ site and will not have the ability to be located remotely. This position will require 10% travel as defined by the business (domestic and/ or international).

Role Requirements

- **Research and Analysis:** Proficient in research methodologies, data collection, analysis, and interpretation. Skilled in both qualitative and quantitative research techniques.
- **Data Analytics and Visualization:** Strong analytical skills, with the ability to extract insights from complex data sets. Proficient in data visualization tools and techniques to effectively communicate findings.
- **Strategic Thinking and business partnering:** Capable of translating research insights into actionable strategies. Skilled in aligning research objectives with organizational goals and priorities.
- **Project Management:** Strong project management skills, with the ability to manage multiple research projects simultaneously, ensuring timely delivery of quality outputs.
- **Problem-solving and Critical Thinking:** Capable of identifying and addressing research challenges, applying critical thinking to solve complex problems, and making informed decisions based on data-driven insights.
- Excellent verbal and written communication skills, with the ability to clearly convey complex research findings to non-technical stakeholders. Proficient in creating compelling presentations and reports.
- Bachelor's degree in Analytics, Data Science, Statistics, Computer Science, or a related field. An advanced degree is preferred.

The pay range for this position at commencement of employment is expected to be between \$174,400 and \$261,600 per year; however, while salary ranges are effective from 1/1/24 through 12/31/24, fluctuations in the job market may necessitate adjustments to pay ranges during this period. Further, final pay determinations will depend on various factors, including, but not limited to geographical location, experience level, knowledge, skills and abilities. The total compensation package for this position may also include other elements, including a sign-on bonus, restricted stock units, and discretionary awards in addition to a full range of medical, financial, and/or other benefits (including 401(k) eligibility and various paid time off benefits, such as vacation, sick time, and parental leave), dependent on the position offered. Details of participation in these benefit plans will be provided if an employee receives an offer of employment. If hired, employee will be in an "at-will position" and the Company reserves the right to modify base salary (as well as any other discretionary payment or compensation program) at any time, including for reasons related to individual performance, Company or individual department/team performance, and market factors.
