Résumé

As a Project Controller in Project Engineering NOCC you will be providing support for project controlling & services, contract management in support of the execution of investment projects in accordance with the law, internal regulations, good practices, and business objectives.

About the Role

Your key responsibilities:

- Support Project Controlling Process (time, costs, resourcing, scope changes) in line with the Project Roadmap and the relevant gate keeping processes covering tracking and forecasting.
- Gather statistical data for future use (benchmarking).
- Use of standardized tools to support project controlling and project portfolio management processes (advanced use of MS Excel, Word and Power point, SAP).
- Support project managers that all live major projects comply to the agreed process, that relevant information is made available in time, adequate project controlling resources are supplied and that project procurement support is provided.
- Invoice Checking within dedicated project controlling on investment projects, financial closure of the project and depreciation of assets.
- Support implementation of new IT systems and changes from the business environment in the unit.
- Responsibility for archiving technical, project and other legal documentation of the unit and for the coordination of associates according to the ISEC requirements.

Essential Requirements:

- University degree in technical, natural&technical, economics or other relevant sciences.
- 2 years working experiences on project controlling and reporting or contracting /purchasing field and working with foreign countries.
- Analytical / data interpretation skills.
- Proficient in English.
- Advanced knowledge of Microsoft Office, especially Excel.

- Ability to be flexible and adapt to change and ability to work in an ambiguous environment.
