Résumé

Medical leader for pipeline products. Gather healthcare system and stakeholders' insights, develop and lead the execution of medical plan during the early launch timeframe for products/indication/ therapeutic area under responsibility.

About the Role

Key responsibilities:

- Ensure medical enquiries are responded to in a high quality, timely manner, and in accordance with applicable standards; establish standard response documents as appropriate, for frequently asked questions.
- Provide medical/scientific input into the development and execution of clinical trial or clinical research related activities, including initiation and oversight of clinical studies / clinical research within the respective therapeutic area.
- Support country strategy for Non-Interventional Studies/Investigator Initiated Trial activities.
- Coordinate review and approval of medical materials and locally developed promotional materials; ensure medical materials provided from global or region for stakeholder engagement and events are tailored to local needs, and reviewed/approved per local/P3 guidelines.
- Ensure medical insights are provided to cross functional groups, including, but not restricted to: Pharmacovigilance, Regulatory affairs, Market Access, QA, Commercial teams, Brand team and others.
- Responsible for risk identification and assessment, mitigation planning as well as implementation and monitoring of appropriate internal controls within the area of responsibilities.
- Reporting of technical complaints / adverse events / special case scenarios related to Novartis products within 24 hours of receipt -Distribution of marketing samples (where applicable)

Essential Requirements:

- Experience with the leadership of a cross-functional team
- Background in the pharmaceuticals industry or correlated markets
- Previous experience in medical roles such as Medical Lead, Medical Manager, MSL, coordinator
- Proven ability to secure integrity and compliance of local business initiatives, regulations and guidelines.
- Strong knowledge of the Brazilian Healthcare ecosystem, processes and key stakeholders;
- Well-developed understanding of country and pharmaceutical industry regulatory, audit and SOPs environment;
- Business Intelligence knowledge: forecast elaboration
- Advanced English
