## Leadership Expectation & Traits

- **Navigating Complexity** : Focuses on larger, longer-term issues, and creates plans and strategies to shape Assets. Challenges the way things are done. Aligns & drives people and organizations around change. Comfortable in navigating the matrix and people related organizational dynamics
- **Delivering Impact** : Establish credibility & influence across diverse stakeholders and able to navigate in an environment of shared outcomes and cross-business accountabilities. Demonstrates enterprise leadership, balance diverse stakeholders & competing/conflicting priorities to drive results
- **Leading People** : Creates empowered leaders to execute efficiently, through the layers of organization and across geographies. Creates systematic development across the organization to build teams with diverse perspectives and capabilities to deliver business plans.
- **Externally focused**: Prioritize understanding and responding to external factors including customer needs, competitor strategies and broader systemic trends.
- **Resilient**: Effectively adapting to change, recovering quickly & learning from challenges & set-backs; thriving under pressure by maintaining focus, flexibility, and a positive outlook.
- **Ambitious**: Being bold, driven, and results-oriented, marked by a strong desire to achieve impactful goals and exceed expectations
- **Curious**: Embracing challenges, valuing feedback, and continuously seeking opportunities to expand understanding and improve, rooted in learning and growth mindsets

### Critical Experiences & Knowledge

- Education: Bachelor's degree in Science, Business Management, or a related field. An advanced degree and scientific background are highly preferred.
- Experience: Minimum of 15+ years of experience in pharmaceutical industry, in a strategic, clinical, or investment role. A combination of Strategic Planning, New Product Planning, Pharma Marketing, Clinical development or pharma early-stage investment experience preferred
- Skills:
  - Exceptional communication skills in English and Chinese
  - In-depth knowledge of China healthcare system, access pathways, and KOLs. Expertise in selected key NVS focused TA highly preferred
  - In-depth knowledge of pharma commercialization and development
  - Experienced in working with networked teams to develop cross functional winning strategies locally and globally
  - Proven ability to work collaboratively with senior executives and cross-functional
  - Experience with developing talents and building launch excellence capabilities within organization
