Location: East Hanover, NJ Up to 27 potential launches expected in the next 5 years at Novartis. The Patient & Specialty Ser-vices team is at the forefront of transforming how the industry helps patients get access to treatment. Do you want to be part of a team that puts patients first with a strong focus on reimagining patient-centric initiatives? We'd love to hear from you. One of the most important functions in today's pharmaceutical industry is patient services. As ease of accessing HCP prescribed medications has become more difficult, the ability of Pharma to build, design, implement, and run dynamic end-to-end patient support offerings has become absolutely critical to a patient's success. The Associate Director, NPS Analytics will lead a team of analysts directly supporting the NPS disease area teams. This individual will work closely with our NPS leaders and will be responsible for supporting the day to day operations with analytics solutions to enable oversight and management of NPS pro-grams. To do this successfully, this individual will develop the analytics vision and roadmap and help build an insights obsessed team that integrates actionable data to inform a cross-functional team and improve patient support. This individual and their team members will be members of NPS Core Program Teams (CPTs), and will partner closely with various cross-functional teams including Patient Support Center, Product, Innovation, Launch Excellence, finance, and market access. This position will be located in East Hanover, NJ and will not have the ability to be located remotely. This position will require travel as defined by the business. Please note that this role would not provide relocation and only local candidates will be considered.

About the Role

Major Accountabilities

- Strong understanding of patient access and reimbursement operations, including patient onboarding, co-pay, adherence and reimbursement services
- Oversee the implementation of analytics for NPS disease-area CPTs that delivers reporting and analytics solutions for all stakeholders
- Deliver operational metrics, KPIs and power stats in partnership with the NPS Disease-Area teams, and oversee the development of operations dashboards that provides visibility into performance
- Support decision making via a disciplined, hypothesis-driven approach and shape the findings into leadership presentations highlighting key actions
- Support operational effectiveness by creating root-cause analysis into programs and summarizing recommendations for NPS and Disease-Area leadership
- Manage data vendor teams and analytics staff for timely delivery of reporting and analytics

Education:

- Bachelor degree required

- Advanced degree (MS or MBA) preferred
- Minimum 3-5 years doing analytics in pharma
- Experience in leading and delivery advanced analytics, reporting, and data management functions, with specific emphasis on specialty pharmacy data sets and patients services preferred
- Experience in Brand Marketing and/or other Business areas a plus (e.g., Managed Markets, Sales, Sales Ops)
- Strong expertise in communication and information/data management
- Cross-functional experience preferred (e.g., managed markets, pricing, medical, analytics, sales, marketing)
- Learning agility: ability to pick up new trends and learn quickly
- Demonstrated partnering and influencing skills, stakeholder management, project management, people management
- Solid understanding of specialty pharma and hospital data sources as well as analytics and data bases in the pharma industry.
